

Having trouble managing your maintenance contracts?
Unsure about which support services best fit your needs?
Looking for ways to reduce your maintenance-related costs?

We have you covered.

A Dynamix Maintenance Coverage Solution

Keeping all of your support contracts organized can be challenging and time consuming. With varying expiration dates, terms and manufacturers, managing a diverse portfolio of service agreements can be overwhelming and extremely costly when there's a lapse in coverage.

There's a better way to take charge of your maintenance. Introducing **Manage*IT**.

With Manage*IT, you get the resources and dedicated support you need to simplify maintenance management. We start with a complete assessment of your current environment. Our expert maintenance professionals take account of machine inventory, locations, contracts and warranty periods, consolidating all of your maintenance data into one dashboard. Our analysis will also evaluate costs, benefits and uncover areas where consolidation leads to savings.

From the Manage*IT dashboard, gain anytime, anywhere accessibility to your inventory. The dashboard makes it easy to track product, contract and warranty information with intuitive search options and data fields you can customize to meet your needs. This enables you to quickly see what's covered, what's not and what's about to expire. You can even instantly alert your dedicated maintenance team leader—all within the Manage*IT dashboard.

With Manage*IT You Can:

- Gain hands-on, single-source support from our maintenance team
- Improve visibility into the status of your inventory from one dashboard
- Control maintenance-related costs
- Automate and simplify maintenance management
- Easily renew, extend or add coverage

The Support You Need

Manage*IT has the flexibility to accommodate all leading manufacturers including:

- IBM
 - Cisco
 - VMware
 - NetApp
-

An Experienced Team

With decades of combined experience and deep knowledge of IBM and Cisco products, our award-winning maintenance team has the expertise to handle the complexities of maintenance management.
